

CS608 - WEB DEVELOPMENT LAB
M TECH
SEMESTER II
LAB 4

Date: 18/02/2025

1. Develop a web portal to lodge a maintenance related complaint for an organization. Use XML schemas and Document Type Definition (DTD) to validate the XML. Display the input of each field and generate a pop-up notification in case of incorrect input. The following fields are to be mandatorily included in the web page:
 - a. Employee ID or Roll No.
 - b. Full Name (First and Last Name)
 - c. Phone number
 - d. Email ID
 - e. Complaint type
 - f. Brief Description of complaint
 - g. Automatically generate a token
 - h. Check status of complaint

Note: Use appropriate data type corresponding to each field.
